Personal Profile

I am a graduate with a bachelor's degree in games design from Teesside University, where I developed an interest in software development and IT. Throughout my studies and work experience in hospitality, sales and research, I gained valuable skills in teamwork, communication and organisation. I have further expanded my skills by attending a bootcamp, where I learnt programming languages such as HTML, CSS, JavaScript, SQL and Python, along with tools like Visual Studio Code, MySQL and GitHub. I am now seeking opportunities in software development.

Key Skills

Technical Skills: -

Fundamentals of: HTML, CSS, JavaScript, SQL and Python (VS Code and MySQL).
Computer Literacy, Documentation Writing and Microsoft 365 (Office).

Soft Skills: -

Active Listening, Teamwork, Time Management/Organisation, Creativity, Adaptability,
Verbal/Written Communication and Problem Solving/Critical Thinking.

Hobbies and Interests

I have a very keen interest in video games, whilst I do play games, I also enjoy watching insightful videos on how they are developed and working on my own projects. I also have an interest in sport, I watch a lot of major sporting events across the globe and participate in a few sporting activities, such as: golf, bowling and pool. As well as this I am a huge fan of films, that is either watching them at home or going to the cinema to see new releases.
